TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend Technologies: Next.js, React.js, Redux, HTML5, CSS3, Tailwind CSS, Axios, Material-UI, Formik, Yup, AOS, Framer-motion, TanStack Query, ShadCN UI

Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication

Tools: : Git, GitHub, Postman, Jira, VS Code, Webpack, Turbopack

AI Tools: Cursor AI, Claude, GitHub Copilot, Codex

WORK EXPERIENCE

Senior Frontend Developer

Nov 2024 - present

[Ken Research](#)

- Optimized Core Web Vitals (LCP, INP, CLS), improving Lighthouse scores from 60 to 90+ and reducing bounce rates by 10%.
- Built 60+ responsive, SEO-friendly pages using Next.js, React, TypeScript, and Tailwind CSS.
- Integrated Microsoft Graph API meeting booking system, generating 2,000+ additional monthly customer interactions.
- Automated PR validation with GitHub Actions for formatting, build verification, and conflict detection.
- Built LLM-powered prompt-engineered system for intelligent form auto-filling and requirement generation, improving user input efficiency and reducing manual effort.
- Developed role-based dashboards for project tracking, client management, payments, and workflow transparency.
- Built an interactive 3D global visualization using Three.js, enabling users to explore countries and view country-specific assets through an immersive and interactive interface.
- Implemented an AI-powered Teams/Zoom assistant, reducing support queries and increasing leads by 20%.
- Adopted AI development tools including Cursor AI, Claude, and GitHub Copilot, improving development efficiency and reducing implementation time by approximately 60%.
- Developed smart search with dynamic suggestions and voice-enabled input, enhancing usability and reducing user input effort.

Frontend Developer

Nov 2023 - Oct 2024

[Ken Research](#)

- Contributed to migration from PHP to Next.js, achieving 2x faster page loads and 40% better scalability.
- Implemented SSR and SSG strategies to improve performance, SEO, and user experience.
- Integrated Stripe payment gateway for secure online transactions.
- Developed interactive Highcharts visualizations across 5,000+ dynamic product pages, increasing user engagement and page interaction by 40%.
- Implemented JWT-based authentication with login, registration, and secure session management, enabling auto-login functionality.
- Integrated OTP verification for email and mobile authentication.
- Received the Ken Celestial Award for outstanding technical contribution and business impact.
- Implemented URL redirection strategy using next.config.js, ensuring seamless migration of old pages and preventing SEO ranking loss.
- Implemented GTM tracking for clicks, scroll depth, filters, and time-on-page, enhancing user analytics and insights.
- Built interactive UI experiences using Framer Motion (SVG animations, scroll-based interactions, and transitions), improving user engagement and frontend polish.

Frontend Developer, Intern

Aug 2023 – Oct 2023

[Ken Research](#)

- Built 10+ responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Assisted PHP-to-Next.js migration, reducing server load by 35%.
- Configured and optimized robots.txt and meta directives to improve crawlability and indexing by search engines.
- Collaborated on frontend development, API integrations, testing, and Agile delivery.
